

Dr. Tanmay Pandya

M.D. (Medicine), D.M. (Nephrology)

Curriculum vitae

Name: Dr. Tanmay Pandya

Father's Name: Mr. Piyushchandra Pandya

Gender: Male

Date of Birth: 7th December, 1977

Marital Status: Married

Spouse: Dr. Preeti Pandya, M.Ch. (Plastic Surgery)

Languages: Gujarati, Hindi and English

Address: **(Permanent)** 8, Panchvati Society, Opp. Indra Complex,
Lal Baug Road, Baroda – 390004, Gujarat

(Current) B-155, Ground Floor, Shivalik,
Malviya Nagar, New Delhi - 110017

Telephone: **(M)** 91 99585 07810

Email: drtanmaynephro@gmail.com

Academic Record

Course	College	University	Period
M.B.B.S.	Government Medical College, Baroda, Gujarat	The M.S. University, Baroda	1995-2001
M.D. (Gen. Med)	Government Medical College, Baroda, Gujarat	The M.S. University, Baroda	2001-2004
D.M. (Nephro)	Institute of Kidney Diseases and Research Centre and Institute of Transplantation Sciences, Ahmedabad. (Attached to B.J. Medical college)	Gujarat University, Ahmedabad	2007-2010

Honors and Awards

- Gold Medal in DM Nephrology from Gujarat University, Ahmedabad
- Five (5) Gold Medals in MBBS, including for 1st rank and for highest marks in subjects like Medicine, Preventive and Social Medicine, and Ophthalmology from The MS University, Baroda
- Recognition as “Distinguished Fellow” for research in transplantation by AST in October 2009 at San Diego, USA
- 1st Prize for paper presentation at Foundation Day of the institute (IKDRC) in 2008 and 2009
- 2nd Prize for paper presentation at Transplantation Update 2009, Ahmedabad
- 1st Prize in the 12th IAP Pediatric Quiz 1999, in the Western Zone of India, held at Lokmanya Tilak Medical College, Sion, Mumbai

Nephrology Training

I trained in Nephrology at the Institute of Kidney Diseases and Research Centre – Institute of Transplantation Sciences, Ahmedabad affiliated to BJ Medical College, Gujarat University, Ahmedabad. IKDRC-ITS, a 400 bedded super-specialty hospital for nephrology and urology, catering to the whole of Gujarat and adjoining states of Rajasthan and Madhya Pradesh, is truly one of its kind in the country.

Training at IKDRC has provided me with an unmatched clinical exposure in all aspects of nephrology. The tremendous patient load has rendered me competent and confident in dealing with all kinds of patients. Some aspects of my clinical experience are summarized here:

1. Screening for kidney diseases
2. Evaluation and management of acute, acute-on-chronic and chronic renal failure patients
3. Evaluation and management of rapidly progressive renal failure patients
4. Management of patients with renal involvement in acute care settings

5. Pre-transplant evaluation of renal transplant recipients and donors
6. Immediate and long term management of patients post renal transplantation
7. Perfusion of renal graft during renal transplantation
8. Evaluation of brain dead patients for deceased donor renal transplantation and perfusion of the graft after procurement
9. Interventions in form of femoral/jugular/subclavian catheterization for hemodialysis
10. Insertion acute peritoneal dialysis catheters and management of patients on acute PD and CAPD
11. Management of pediatric patients with renal failure with conservative, peritoneal or hemodialysis and renal transplantation
12. Highest exposure in terms of all aspects of nephrology
 - a. Alternate day OPD with an average OPD attendance of 60-80 patients per day
 - b. About 2000 femoral catheterizations during the course of 3 years
 - c. About 1500 jugular catheterizations during the course of 3 years
 - d. About 1000 renal (native and allograft) biopsies during the course of 3 years
 - e. Exposure to highest number of transplantations- 328 in the year of 2009 alone with more than 60 being deceased donor transplantations
 - f. Managing a Nephrology ICU with 10 beds which is always fully occupied

Work Experience

- Currently working at New Delhi with Davita, an US based global leader in Nephrology and dialysis, with presence in 12 countries and over 2300 center treating in excess of 1.8 lakh patients every month.

I joined Davita as independent **Full-time Consultant** and established the chain's first center in North India, in New Delhi in June 2012 at Primus Super Specialty Hospital, one of the leading super specialty hospitals of the region. Primus Hospital is credited with the highest number of knee replacement surgeries in Delhi/NCR at a single center. I took over the existing department of Nephrology at Primus, under the management of Davita and have taken the growth of the department up by more than 300% in 3 years. I have reestablished the renal transplant program at Primus Hospital and have independently and successfully carried out regular renal transplants.

- Worked with Sterling Hospitals, a reputed corporate chain in Gujarat as **Full-time Consultant and Head of Nephrology** at Bhavnagar from October 2010 to June 2012

I single handedly established the Nephrology department and Dialysis unit at Sterling Hospital, Bhavnagar. I was associated with the hospital right from its inception and gave input in the designing and equipping of the department. I got BVQI accreditation for the department in the form of ISO 9001:2008 certificate for quality management system.

- Assistant Professor of Medicine at Government Medical College, Baroda from March 2006 to July 2007
- Senior Resident in Cardiology at Sir Ganga Ram Hospital, New Delhi from August 2005 to January 2006
- Intensive care physician at Escorts-Bhailal Amin General Hospital, Baroda from July 2004 to June 2005

Post Graduate Thesis

- *'A Clinical Profile of Adult Onset Nephrotic Syndrome with Special Reference to Histopathology'* – thesis for DM Nephrology
- *'Clinical Profile of Adult Meningitis Patients and Role of Estimation of C-Reactive Protein in Cerebrospinal Fluid for its Rapid Diagnosis'* – thesis for MD General Medicine

Publications

- Feroz Aziz, **Tanmay Pandya**, et al. Nephrotic presentation in hydatid cyst disease with predominant tubulointerstitial disease. International Journal of Nephrology and Renovascular Disease 2009; 2: 23-26

Presentations

- 'Comparison of interdialytic weight gain and ultrafiltration in varying dialysis frequency in hemodialysis patients' at ISNCON, December 2013, Gurgaon, India
- 'Patient characteristics, practice patterns and outcome in hemodialysis sessions in an outpatient centre' at ISNCON, December 2013, Gurgaon, India
- 'Kidney transplantation – your best bet' at *India Medical Tourism Destination (IMTD)*, organized by Ministry of Tourism and FICCI, September 2013, Lagos, Nigeria
- 'Renal transplantation without conventional immunosuppression by clonal stimulation-deletion' at AST Distinguished Fellows Research Forum, October 2009, San Diego, CA, USA
- 'Renal transplantation in lupus nephritis' at Transplantation Update 2009, Ahmedabad.
- 'Renal transplantation in lupus nephritis' at ISN-WZ 2009, Goa.
- 'RBC cholinesterase and serum cholinesterase in organophosphorus poisoning' at *APICON- 2004*, Hyderabad, India.
- 'Unusual presentation of Acute Myeloid Leukemia' at *APICON- 2004*, Hyderabad.
- 'Possible role of vitamin C and vitamin E in prevention of senile cataract' at *APICON- 2004*, Hyderabad.

Conferences

- ASN Kidney Week, Philadelphia, November 2014.
- ISNNZ, March 2014.
- ISNCON 2012 and 2013.
- AST Distinguished Fellows Research Forum, San Diego, USA, October 2009.
- ISN-WZ 2009 and PDSI Meeting at Goa, September 2009.
- Transplantation Update, Ahmedabad, December 2007, January 2009, 2010 and September 2012.
- APICON 2004, Hyderabad, January 2004.
- Coronary Artery Disease, Baroda, August 2003.
- CME 2003, API Mumbai Branch, Mumbai, May 2003.
- All Gujarat Workshop on Rational Drug Therapy, Karmsad, Gujarat, August, 2000.

Affiliations and Memberships

- Member of International Society of Nephrology
- Member of American Society of Transplantation
- Member of ERA-EDTA
- Member of Indian Society of Nephrology, West Zone

Personal Statement

Being trained under the mentorship of Padmashree Prof. H L Trivedi, MD, DSc, a nephrologist of international repute, and at an institute which is second to none, I have gained extensively in clinical knowledge and acumen.

Then working as a nephrologist for the past several years I have realized a renewed sense of responsibility towards my patients. Caring for them gives me a distinct form of satisfaction, especially when I have been able to touch their lives and make a difference. It is with both

pride and humility that I cherish the gift of my skills to render a new hope and breath in a new life by means of transplantation.

It is my endeavor to deliver a reliable, responsible, transparent and ethical care to those who have entrusted their well-being in my hands.
